

PALLET RACK POST PROTECTORS

Protect your racking investment with high-quality post protectors and prevent accidents.

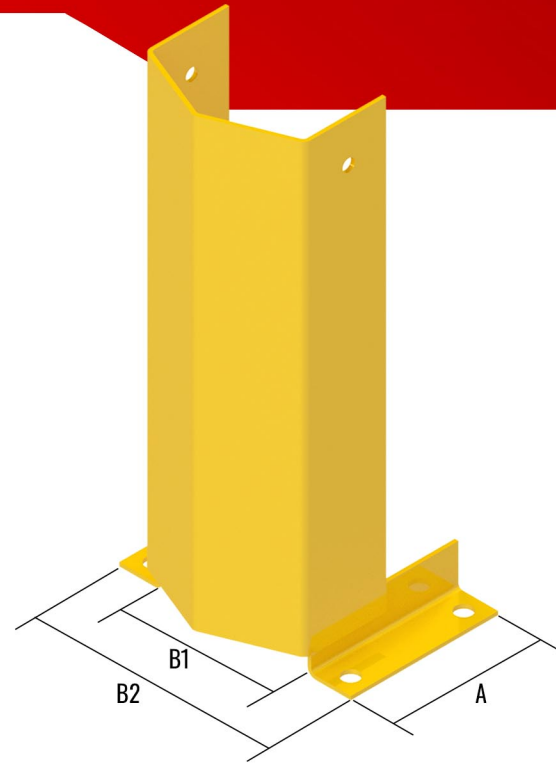

POST PROTECTORS

Protect pallet rack uprights from forklift impact!

Prevent costly accidents with our high-quality Post Protectors. Designed to shield the upright columns from being hit by forklift traffic. This solution protects the integrity of the racking preventing collapse or damage. Wrap around design completely protects the front and sides of the upright.

FEATURES

- ☒ Wrap-around design protects the front and sides of the pallet rack uprights.
- ☒ 5/16" thick steel construction resists heavy impacts.
- ☒ Anchors to floor to remain firmly in place, providing max stability and consistent forklift impact protection.
- ☒ 18" height protects the most vulnerable lower section of the uprights.
- ☒ Safety yellow coating for max visibility.

**** This product requires 4 wedge anchors 1/2" x 3 3/4"**
