We Provide Your Warehouse Solutions

BOLLARDS

Add impact protection to your warehouse!

Protect various areas of your warehouse from vehicle collision with our heavy duty steel bollards. Surface mounted and easy-to-install, Red Steel bollards are designed to withstand full impact!

Use bollards to safeguard building corners, doorways, rack ends, machinery of wherever else you need protection from warehouse traffic.

Available in two different diameters:

Height	Diameter	Baseplate	Weight
42"	4 1/2"	10" x 10" 1/2"	31 lbs
42"	6"	10" x 10" 1/2"	57 lbs

- ✓ Anchored to ground for max strength.
- ✓ Safety yellow color for max visibility.

BOLT-ON POST PROTECTORS

Protect your pallet racks from impact!

It only takes one damaged rack post to compromise the structural integrity of an entire racking unit. Our bolt-on post protectors fit into the upright holes and can be installed at the exact height you need, providing just the right amount of protection for your racking posts.

Bolt-on post protectors reinforce your uprights with more steel, increasing the thickness and rigidity of your racks!

- ✓ No floor anchoring required.
- ✓ Fits into upright holes and can be installed at the exact height you need.
- ✓ High visibility powder coated orange color.
- ✓ Solid steel reinforces your pallet rack thickness and rigidity.

Product Specifications:

Height:

- 12" inches (Powder coated orange)
- 18" inches (Hot dip galvanized)

Available in Hot Dip Galvanized finish for harsh condition applications!

Anti-rust finish for freezers, outdoors or operations that require chemical applications.

BULLNOSE RACK PROTECTORS

Prevent damage to your rack uprights

Pallet racks suffer forklift impacts all the time and 90% of rack damage happens in the bottom 4 inches of the uprights. Our bullnose protectors are a cost-effective solution to safeguard the lower ends of your posts and avoid costly repairs.

Product Specifications:

Height: 4" inches

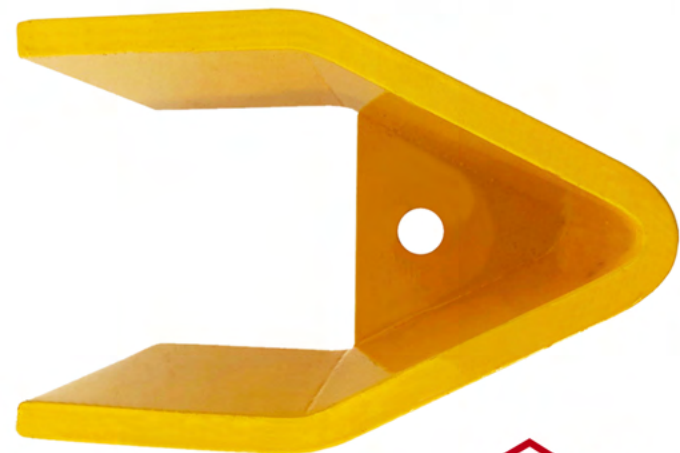

Width: 4" inches

Thickness: 5/16" steel construction

* This product requires a 3/4" x 4" wedge anchor for installation.

- ✓ Anti-rust Galvanized application available for outdoor or extreme weather facilities.
- ✓ Thick steel construction resists constant impact from heavy machinery.
- ✓ Anchor hole located inside the bullnose.

RACK CLEANING STATIONS

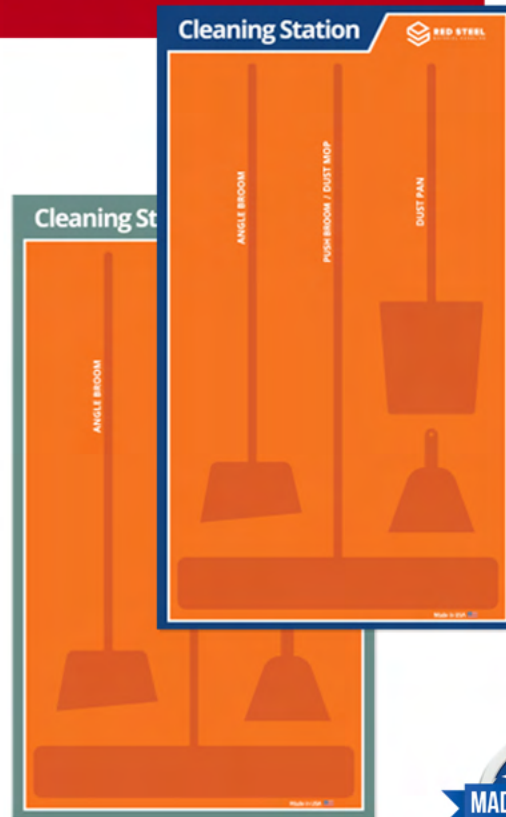

Keep your warehouse clean and tidy!

A clean workspace improves work efficiency, inspires confidence and give a good impression. Install Red Steel Cleaning Stations in your facility to help maintain your workspace spotless, always keep your cleaning tools organized and within reach!

Heavy duty aluminium composite shadow board

- ✓ Available in 42" and 48" wide to fit your uprights length.
- ✓ Available in two colors that match your pallet racks.
- ✓ UV protective coating for outdoors - prevents color fading.
- ✓ Zinc plated hooks included.
- ✓ Industrial and commercial grade.

CLEANING TOOLS
POWERED BY

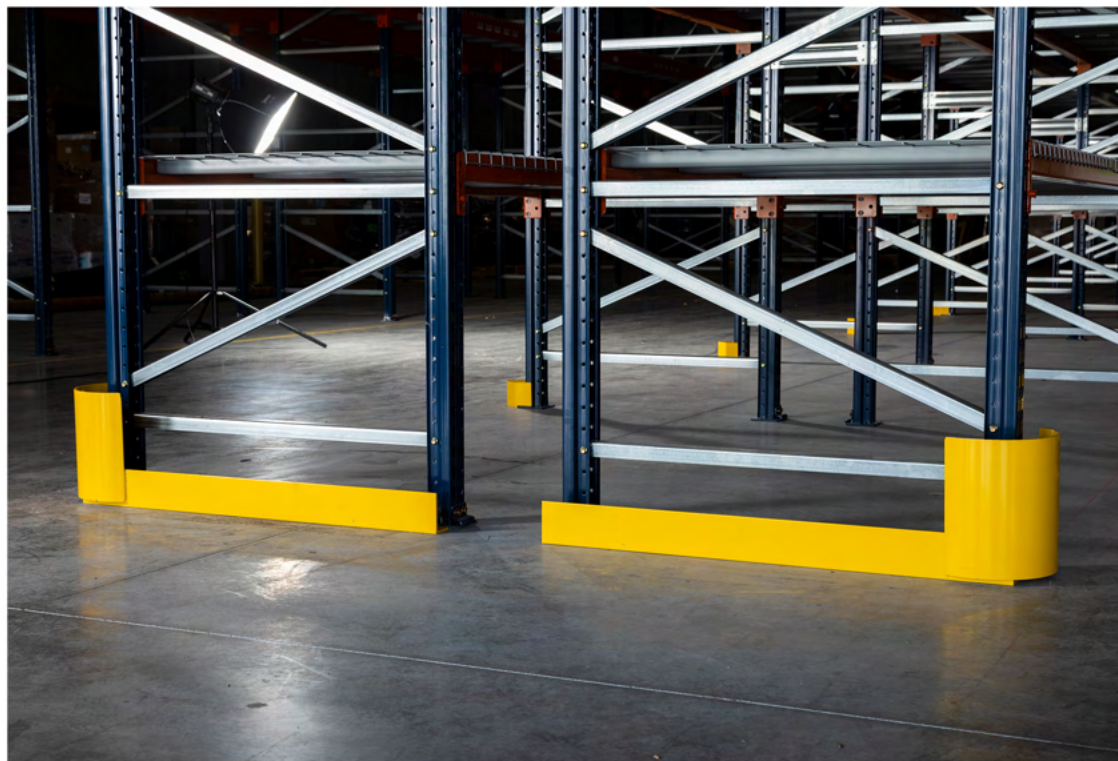

Available to order with or without cleaning tools.

END-OF-AISLE RACK PROTECTORS

Guard your pallet rack frames from forklift impact

Preserving the integrity of your pallet racks is very important to prevent costly accidents. The end of aisle protector protects the bottom of the upright where most damage usually occurs. This design will protect the entire depth of the frame from forklift impact and is perfect for intersecting aisles or the end of each pallet rack aisle where forklift traffic is heaviest.

- ✓ Wrap-around design protects the pallet rack uprights bottom completely
- ✓ Heavy duty 5/16" thick steel construction.
- ✓ Available in right, left or double end design.
- ✓ Safety yellow color for max visibility.

Product Specifications:

Length: 42" inches
Height: 12" inches
Thickness: 5/16" inches
Weight: 41 lbs

FORKLIFT GUIDE RAILS

Protect your pallet racks from forklift impact while providing higher speeds and maximizing your warehouse efficiency!

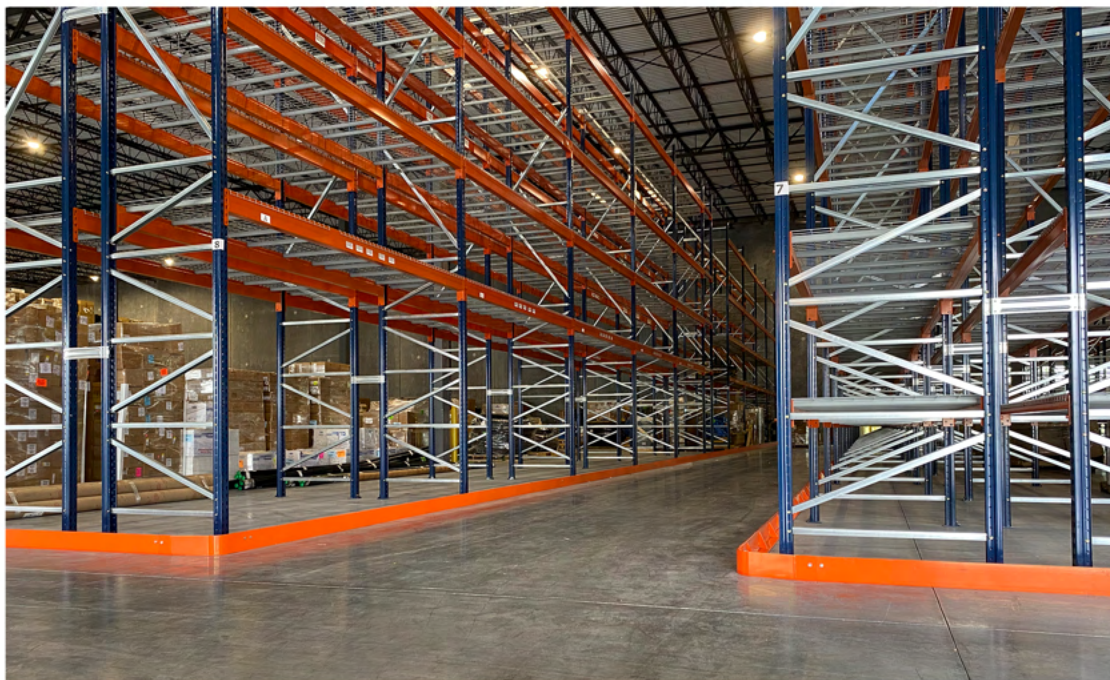

Prevent damage to your racking systems with Red Steel Guide Rails. This system improves the safety of your operations by keeping vehicles on track inside your warehouse aisles, allowing higher speeds and maximizing your work efficiency. Using a guide rail will help reduce accidents, protect the products you store and the integrity of your pallet racks. Guide Rail Systems work in perfect harmony with Selective Pallet Racks & Cantilever.
